

TIGERLINKS FINE JEWELLERY

Jewellery Materials, Care & Frequently Asked Questions

Our jewellery is designed to give you the look and feel of luxury without the luxury price tag.

Every piece is made from stainless steel and finished with a durable, multi-layer PVD 18K gold-plated coating.

What is PVD 18K gold plating?

PVD stands for **Physical Vapor Deposition**. Our jewellery uses a multi-layer PVD 18K gold-plated finish over stainless steel. A thin layer of titanium sits between the stainless steel and gold layers, helping bond the gold finish to the steel and providing a durable surface.

Is the jewellery waterproof?

Yes. Our jewellery is designed to be **waterproof** and suitable for everyday wear, including showering and swimming. As with any plated jewellery, following the recommended care instructions will help maintain the finish for as long as possible.

Is it tarnish-free?

Our jewellery is designed to be **tarnish-resistant and long-lasting**. Proper care is still recommended to help preserve the gold finish and overall appearance.

Is it hypoallergenic?

Yes. Our stainless-steel jewellery is designed to be **hypoallergenic** and comfortable for everyday wear.

Can I shower or swim while wearing it?

Yes. Our jewellery is suitable for showering and swimming. After exposure to water, simply wipe the piece dry with a soft cloth when convenient.

How do I clean my jewellery?

Cleaning is simple: gently wipe your jewellery with a **silver polishing cloth** to remove oils, fingerprints and everyday residue. Avoid harsh chemicals or abrasive cleaning products.

What should I avoid?

For best results, avoid prolonged contact with **body lotions, perfumes and similar cosmetic products**. Apply these products first, allow them to dry, and then put your jewellery on.

How should I store my jewellery?

When not being worn, store each piece in its **jewellery bag or a suitable container**. Keeping pieces stored safely helps reduce scratches, tangling and unnecessary exposure to moisture and cosmetics.

Water	Shower & swim friendly
Cleaning	Gently wipe with a silver polishing cloth
Perfume & lotions	Avoid direct/prolonged contact
Storage	Store in the supplied bag or a container
